

Cold Kentucky Night - Blue Moon Rising

Bluegrass Contemporary, Key of **B** My Key: ____

INTRO: 2X (**1** , **1** , **7^b** , **1**), **1**

The **1** sun is goin' down, on this old, Kentucky town
And the **7^b** moon, is-comin' over the **1** hill
There's a **1** chill that imparts, a certain feelin' in my heart
Black as **7^b** coal, and-cold as **1** steel

CHORUS:

7^b . Kentucky moon, you leave me **1** lonely when you shine
7^b . I-thought our love, ran **1** deeper than the mine
7^b . Now she's gone, like a **1** star falls, from the sky
7^b , On-a cold, Kentucky **1** night
7^b , On-a cold Kentucky **1** night

INSTRUMENTAL: Same as INTRO

Was a **1** cold, Kentucky night, when she came, to say goodbye
Were that **7^b** now, my heart's so **1** cold
And the **1** blanket of despair, wrapped around me standing there
As I **7^b** turned, to watch her **1** go

CHORUS / INSTRUMENTAL

Her memory **1** stays, on my mind, doesn't seem to fade with time
A love that's **7^b** gone, but never **1** lost
Seems to **1** track me, without fail, like a hound hot on my trail
With-that broken **7^b** heart, I've paid the **1** cost

CHORUS

OUTRO: 2X (**1** , **1** , **7^b** , **1**) (hold last note)

1 = B 7^b = A
