**4** You say that you **3m** couldn't ever, **6m** feel that way a- **4** gain  
**1** You say that the **5** only thing we'll, **4** ever be is **5** friends  
And **3m** you say that the **6m** distance  
between our **4** hearts is just too far  
**2m** I can't help but laugh when I know, **5** just how wrong you are,  
I can **1** close my **5** eyes and you're **4** standing **5** there  
On a **6m** California **5** beach, the **4** sun in your **5** hair  
I don't **6m** have to **5** wonder what it **4** might be **5** like  
**6m** I can go **5** back any- **4** time,

**INSTRUMENTAL:** Same as **INTRO**

In **4** dreams of you I **3m** feel you lying **6m** right here next to **4** me  
Don't **1** tell me I'm the **5** only one 'cause, **4** I just can't be- **5** lieve  
That **3m** you could ever **6m** leave me  
and go and **4** find, somebody new  
**2m** Every time I close my eyes I'm, **5** still right there with you,  
I can **1** close my **5** eyes and it's **4** Fourth of Ju- **5** ly  
And we're **6m** at the **5** lake 'neath the **4** spark,lin' **5** sky  
I don't **6m** have to **5** wonder what it **4** might be **5** like  
**6m** I can go **5** back any- **4** time,

**INSTRUMENTAL:** Same as **INTRO** but last chord is **1**

I can **1** close my **5** eyes and it's **4** mid De- **5** cember  
There's- **6m** so many **5** things that, **4** I can re- **5** member  
Like the **6m** summer we **5** drove up to **4** South Da- **5** kota  
And the **6m** night we **5** spent there in **4** Min,ne- **5** sota  
**2m** I don't **3m** know if you could **4** ever be **5** mine  
But **6m** I can go **5** back any- **4** time
