She **1** got aboard the Greyhound, driver had the diesel set to **4** go,
She was **1** crying when she left me like I was, but I couldn't let it **5** show,
I **1** wish I could have told her, music didn't mean that much to **4** me,
But **1** music is my way of life, and **5** on the road, is where I have to **1** be
She **1** didn't like me travelin', or the nights I had to stay, out of **4** town,
She **1** wanted me to stay with her, take a factory job and settle **5** down,
But **1** music's my profession, the only thing I've ever really **4** known,
If I'm **1** ever gonna make it, I **5** guess I have to make it all a- **1** lone
